

## ABSTRACT

Compounds that inhibit the expression of a protein comprising the same or substantially the same amino acid sequence as the amino acid sequence represented by SEQ ID NO: 1, SEQ ID NO: 4, SEQ ID NO: 7 or SEQ ID NO: 10 or the expression of a gene for the protein, the antisense polynucleotide comprising the entire or part of a base sequence complementary or substantially complementary to DNA encoding the protein or its partial peptide, the antibody to the protein or its partial peptide, etc. are useful as prophylactic/therapeutic agents for cancer, etc., apoptosis promoters, etc.
